

(2) The tariffs shall indicate that the rates or fares apply from airport-to-airport and that the carrier does not perform additional services; or

(3) The tariff shall indicate that the rates or fares apply only from airport-to-airport but that additional services are furnished subject to additional charges, and, except for pick-up and delivery services, the tariff shall set forth charges for all other services and other provisions applicable thereto, as required by § 221.38, clearly and explicitly specifying the extent to which such services will be furnished.

(b) The above requirements shall not be construed as precluding the publication of rates or fares for air transportation which include pick-up or delivery service at certain specified points or areas within the pick-up and delivery zone of the airport city of origin or destination but subject to a further provision that pick-up or delivery service will be provided at other specified areas or points within the same pick-up and delivery zone only upon payment of an additional charge.

(c) The airport-to-airport application of rates or fares for air transportation and the statements as to the extent to which such rates or fares include pick-up, delivery or other accessorial services shall be published in the rate or fare tariff and not in a governing tariff. However, the definitions of such services, the definitions of areas or points within or between which such services will be performed, and the rates or charges for such services (when not included in the air transportation rates or fares) may be published in a governing rules tariff conforming to § 221.102, except that additional charges for pick-up and delivery services shall not be included in the tariffs.

(b) *Restrictions upon beyond points or connecting carriers.* If a proportional fare or rate is intended for use only on traffic originating at and/or destined to particular beyond points or is to apply only in connection with particular connecting carriers, such application shall be clearly and explicitly stated directly in connection with such proportional fare or rate.

§ 221.58 Arbitraries.

(a) A tariff may provide that rates or fares from (or to) particular points shall be determined by the addition of arbitraries to, or the deduction of
